Family tree of political parties in Slovakia, 1990-2008

- Notes
- 1) Numbers in parentheses represent the number of seats held. Independent deputies are included only when parties that they form return to parliament in subsequent elections.
 - 2) Thick lines mark periods of parliamentary representation in the parliament. The width of the line is proportional to the number of deputies (listed in parentheses).
 - 3) Hairlines mark periods during which parties had no representation in parliament.
 - 4) Asterisks mark periods of participation in government (except for brief 2004 government including ADSR, APR, NDS, SDL and KDH.)
